

School Rewards Publicity

Bulletin Boards, Banners and Marquee

Putting banners up in the high traffic areas in your school provides great exposure to your supporters!

Vinyl banners that can be reused year after year are a great way to promote the program.

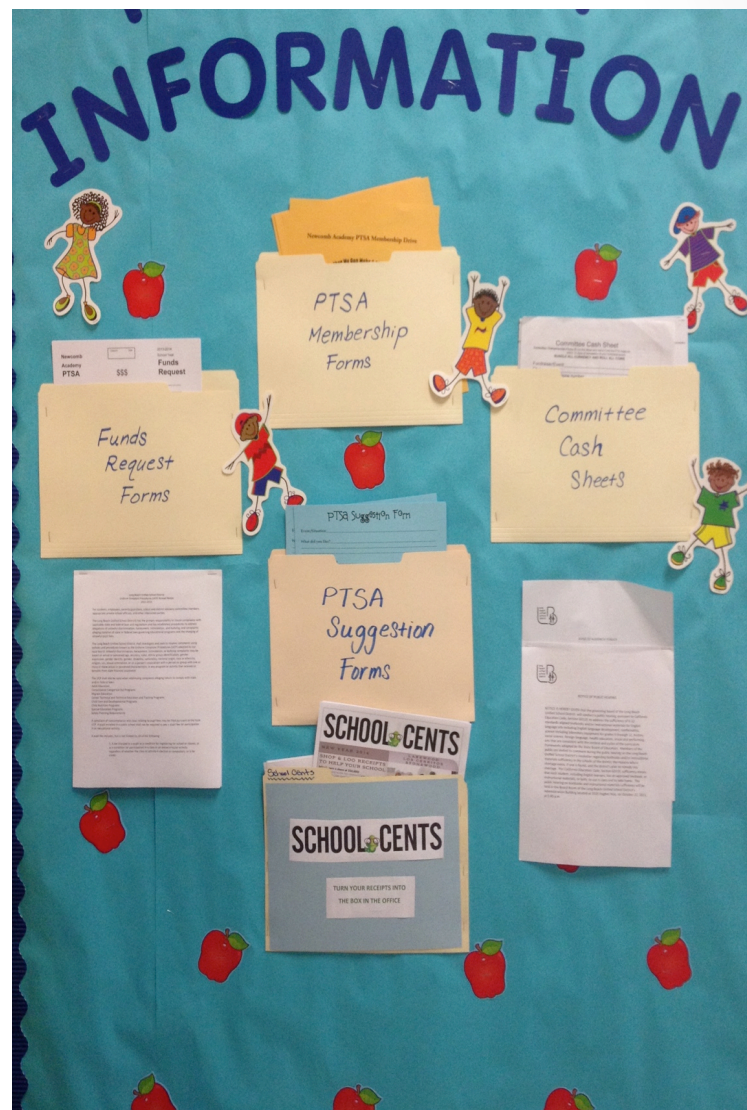

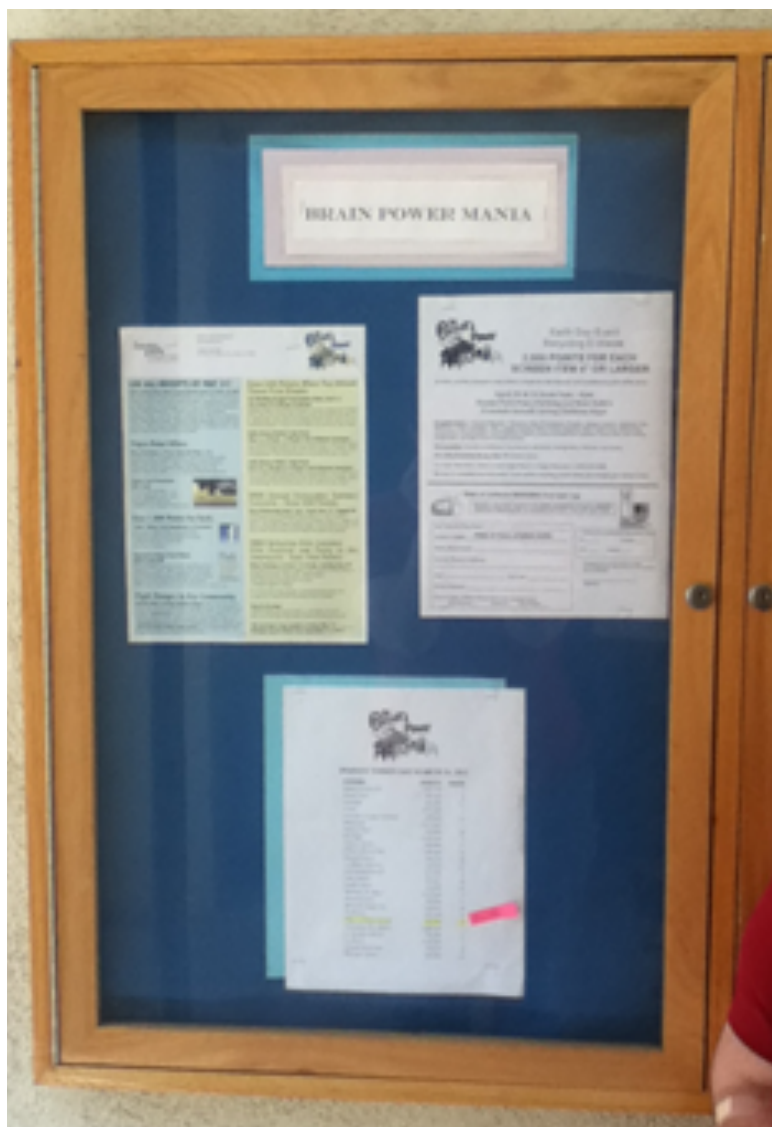

Homemade banners work too and can be made of durable fabric.

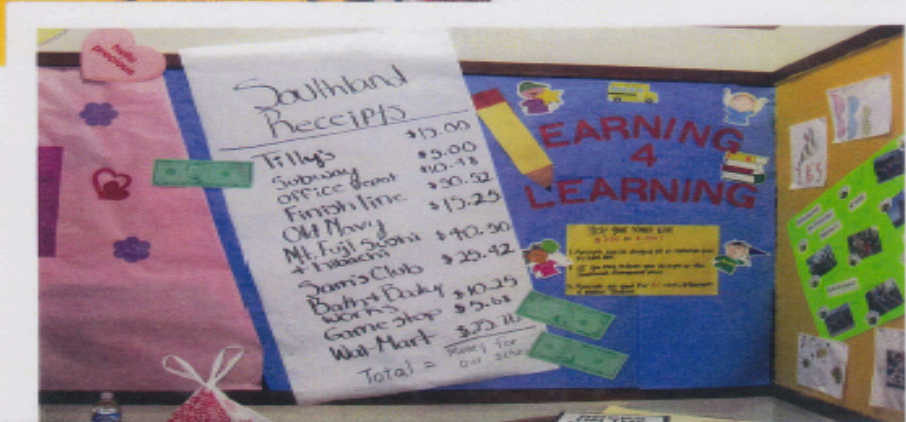

Each one is original!

Bulletin boards that feature the program flyer and points updates are a great way of promoting the program and keeping supporters informed of your progress.

Don't forget to promote the program using your school's marquee!

You might have to spend a little time in front of the marquee to get just the right shot, but when you do...turn it in!
